Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
 - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
 - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 06 August 2003.
2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Drawings

1. The drawings are objected to under 37 CFR 1.83(b) because they are incomplete. 37 CFR 1.83(b) reads as follows:

When the invention consists of an improvement on an old machine the drawing must when possible exhibit, in one or more views, the improved portion itself, disconnected from the old structure, and also in another view, so much only of the old structure as will suffice to show the connection of the invention therewith.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action.

Figure 2 appears incomplete. Op amplifiers/comparators UID and UIC are shown not connected. Switch for V to L line-pad has no label; is this the headlight switch? Relay 33 doesn't show connection to battery and headlight/load.

Please correct the above issues.

The objection to the drawings will not be held in abeyance.

Specification

2. The abstract of the disclosure is objected to because in the last sentence there are the phrases: "car used players" and "Kara OK" , which must be described in more standard English terms. Correction is required. See MPEP § 608.01(b).
3. The disclosure is objected to because of the following informalities: please make similar changes, as above to sheet 1, line 15; sheet 2, lines 10-11; and sheet 4, lines 11-12.

Appropriate correction is required.

Claim Objections

4. Claim 4 is objected to because of the following informalities: claim recites limitations of "car used players" and "Kara OK". Please use more standard English terms. Appropriate correction is required.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 2836

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Sloan;(5332958).

Sloan discloses a battery disconnect device 10 for a vehicle, which reads on the low voltage auto-interruption device; and is electrically connected between the battery 12 and the electrical load 16, which reads on the power consuming device and includes radio, headlights, hazard lights and the like, 2:45-60; and an electromechanical switch 14. The battery disconnect device circuit 10 includes a programmable microprocessor 18, which reads on the control circuit, and compares the battery voltage signal with a calculated or preset cut off voltage level and outputs a battery disconnect signal when comparator 216 or circuit 54 indicates a presence of a low voltage signal or high voltage signal.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James A. Demakis whose telephone number is 571.272.2050. The examiner can normally be reached on 7:30AM-4:00PM:
